

We wrote this in 2021. I thought that I would tell you about my family who has lived here since 1978. My wife and I had four children and enjoyed living here. We all became believers in Jesus dying on the cross for all of us. Jesus was our restoration; we were born again, and our names were all put in the book of life. He also told us through the Bible that this day would come, and we believed it. So, we knew of His coming again and that He would take all believers out of this world. We would meet him in the air and on to paradise. He also told us what will happen in the future for all those living after we were gone.

The rest of this packet will tell you all that will occur and what decisions are needed to experience the same hope and peace we did. That is why we sent it forward. We will be praying that you will hear from God as well.
