

PURPOSE OF EACH SERIES

Series #1: This series is for unbelievers, and we removed as many barriers as possible so that they can hear from God. It moves them along in the process of becoming a disciple. If they hear from God, they will move to series 2, and we feel we can help them in those next steps if they do. Those that share this with others have a good platform for open discussion. Everything is pointing to the decision.

Series #2: If they move to this series, their interest, we believe, has been heightened. The songs are first about our rescue and moves to how we feel at times and how He reassures us to we need help and we can ask then ends in worship.

The spheres section gives them the whole picture and sees God's plan, the 30,000-foot view. This illustration also helps them get past just today and realize they are part of a beautiful, loving plan.

There are advanced studies about living by faith and how to rewire the mind each day. They again see the God Speaks, icon which is again a salvation message using the Romans road.

The book of John is there for Bible study personally or in small groups.

The buttons at the bottom of the page speak to them again for the need to decide where they are. We do not know who is answering; we only get a count of how many respond.

Series #3: Give a summary glimpse of what is to come. End times are being put in perspective and explains what is going to happen. This section gives them action steps. This project could be a fun and an effective way to teach these truths.

If used in groups where there are believers and unbelievers, it does reveal a belief system is necessary.

We believe it would be a great youth project.

Buttons on the bottom again create the visual need for a decision.

Potential Projects:

1. Developing outreach programs that various groups can implement.
2. Developing helps for social media communication.
3. Develop a plan for family devotions.
4. Develop small group studies.
5. Watch for more coming.
